

# Online Stickies lino

Easy to paste it, see it, organize it and peel it off.

## WHAT's lino?

lino is an online sticky note service that you can use to post little memos, to-do lists, ideas, and photos wherever you want on an online canvas. You also can move all your stuff around, organize it, and peel it off when you don't need it anymore. All you need is a browser, and you can share your canvas with whomever you want, too.

## Color stickies, see-throughs , photos

You can post color stickies, see-through stickies, and photos too. You can also attach tags and dates to your stickies to organize them.

## Canvas

You post lino stickies on an online canvas, and you can create as many canvases as you want – say, a to-do canvas, an idea canvas, a message board, or photo album to share with friends and such like – it's up to you. You can also customize canvas wallpaper as you want.

## Total freedom

You can manipulate both stickies and canvases with total freedom, dragging and dropping them wherever you like.

## Share the fun

You can use lino in any way you want – a message board, a space for sharing ideas with friends, a wall for posting all those party photos, and so on – all you need is imagination.

## Connect
